

LIFEBUOY LIGHTS

Daniamant Lifebuoy Lights meet all the latest IMO SOLAS standards

- Fully MED approved
- IMO SOLAS approved
- Intrinsic Safety
- Increased Safety (Category 2)
- Approved to ATEX and IECEx requirements
- For use in hazardous zones 1 and 2

L40

The only water activated intrinsic safety and increased safety Lifebuoy Light in the World. Approved to both ATEX and IECEx standards, the L40 is designed for use in hazardous installations, such as offshore oil rigs and gas and oil tankers. The L40 is both corrosion and tamper proof.

It also uses the most reliable water activated silver chloride technology. The lamp is sealed within a tough, polycarbonate dome.

The L40 will be replaced during the life of this brochure with the new L161. Please check with your Distributor for details.

Daniamant design and manufacture all of our products in line with the Quality Management System (ISO), relevant worldwide approvals, technical specifications, current legislation and International directives.

Our mission is to achieve World class performance through partnerships with our suppliers, customers and employees, providing products and services that enhance the safety and security of our customers.

Daniamant products cover five key areas:

- Lifejacket Lights
- Liferaft Lights
- Lifebuoy Lights
- Intrinsically Safe Lights
- Special Lights

DANIAMANT

LIFEBUOY LIGHTS

Daniamant Lifebuoy Lights offer:

- A full range to suit all applications
- Minimum 2 cd light output.
- Minimum 2 hour light duration
- Fully MED approved
- IMO SOLAS approved

L90

Formerly supplied by Comet GmbH as their Lifebuoy Light 9120500. This outstanding light is now manufactured by Daniamant as the L90 series. It uses five alkaline batteries, offering a life of one year. Robust and reliable, the L90 is automatically activated after manually releasing the light.

The part numbers have now changed as follows:

DESCRIPTION	Old Part number	New Part number
Lifebuoy light including batteries	9120500	63-B300
Lifebuoy Light	9120200	63-B301
Bracket	9120600	63-4003

The L90 is supplied complete with a 2.5m lanyard.

L90 continues in production and will continue to be available.

Full details of the new L16* series are available on our website. Please check with your Distributor for further details

L41B

This unique Light is similar in design to the L40. It has been designed to be smaller and to be highly resistant to accidental damage on board ship and to deflect rope and other impacts. The L41B comes complete with a sealed battery and therefore only needs replacing every 5 years.

The L41B will be replaced during the life of this brochure with the new L160. Please check with your Distributor for details.

L120

The remarkably cost effective, tamper, impact and corrosion resistant design of the L120 incorporates a sealed, five year life, lithium battery. Activation is by a reed switch and the Light also has an in built "Press to Test" facility.

The L120 will be replaced during the life of this brochure with the new L160. Please check with your Distributor for details.

Our website at www.daniamant.com contains a lot more information, including the Technical Data Sheet, the Material Safety Data Sheet (MSDS) and copies of all approvals.

IECEX Number: IECEX ITS07.0001X

ATEX Number: ITS02ATEX3047X
