ROARING FORTIES™ SMA2158 series Aviation Lifejacket - For Trained Crew Only

ROARING FORTIES™ SMA2158 (CASA ATSO 1C13 approved) inflatable twin chamber jacket has a spray hood attached. This is popular with aviation pilots and their crews. Apart from commercial users, Australian Maritime Safety Authority Search and Rescue Wing personnel also prefers the use of this jacket. It is operated with 2 x 18gm CO2 cylinders and has a buoyancy of greater than 195 Newtons (44lb or 19.95kg) after 24 hours. The lifejacket will take only 3 seconds to right a person to an altitude of at least 30 degrees to the vertical with mouth & nose well clear of the water. This jacket will provide good rear and lateral support and is stable in either direction.

This jacket comes included with a sprayhood for extra protection from the waves and splashes.

The lifejacket bladder is welded with a 6mm bar die & the bladder has the ability to withstand 10 psi of pressure.
