

ROARING FORTIES™

SMA1060 MAXI PRO INFLATABLE PFD TYPE 1 with Deck Harness

Australian Standards AS1512
& ISO12401 Approved

ROARING FORTIES™ SMA1060 MAXI Inflatable PFD Type 1 with Deck Harness is made in Australia in its entirety. It is Australian Standards Approved as a 150 Newtons PFD and easily exceeds EN 396 requirements. The deck harness is designed to suit all yacht racing and recreational activities and approved to ISO12401.

The SMA1060 MAXI has similar design to the inflatable life preservers Safety Marine Australia manufactures for the Australian Army (light Infantry), Australian S.A.S. and Australian Commandos.

Unique features include see-thru window for operating system/cylinder status, detachable crutch strap and a detachable pouch for PLBs. The "U" shape design provides more comfort and it comes with 3 toggles on the valise for attachment to most wet weather jackets.

The SMA1060 MAXI is designed and manufactured to provide comfort and durability. The SMA1060 MAXIs are service friendly and have a strong service support network Australia wide.
